(c) The reason for the shortage is the increasing demand of Reserve Bank of India for fresh notes and the limited capacity of the existing units to meet this demand. To bridge the gap between the demand and supply of currency/bank notes, following steps have been taken :—

(1) The existing two note printing presses at Dewas and Nasik have been put on two shifts working.

(2) Two new Note Printing Presses one at Salboni (West Bengal) and the other at Mysore (Karnataka) are being set up by Reserve Bank of India.

(3) A decision has been taken to coinise Re. 1, Rs. 2 and Rs. 5 denomination notes in a phased manner so as to utilise the capacity so released, for printing of higher denomination notes.
